

Dear Captains,

Our Yacht Club is encouraging our members to use RaceQs free phone app to record our regattas. After the race, we will be able to watch a 3D replay of the entire fleet up at the club or by following the link provided by raceQs. The replay should spark some interesting post-race group analysis. Please check [www.raceQs.com](http://www.raceQs.com) for more information and demo videos.

### **Smart Phone Instructions**

If you have a smart phone, you can record and automatically upload your 3D replay. Step-by-Step videos are available [here](#).

1. **Download** the free raceQs app onto your [Android](#) or [iPhone](#).
2. **Go Sailing.** Push start button and raceQs will record everything you need.
3. **Upload It.** Broadcast your track LIVE or upload it after the race.
4. **Watch It.** Login on your computer to [www.raceQs.com](http://www.raceQs.com) to view, edit, and share your 3D race replay.

### **Manual GPS Track Instructions**

If you don't have smart phone, you can manually upload your "regular" GPS tracks.

1. Extract and **save the GPS file** from your race onto your computer.
2. Create a free account on [www.raceqs.com](http://www.raceqs.com).
3. Once you are logged in, on the left side of the page is a button for "**Upload GPS**".
4. Follow the on-screen directions to upload your saved track to your raceQs account.
5. Your GPS track will be transformed into a 3D replay that you can **edit and share**.

All the boats in your fleet who were running raceQs will automatically be added to your replay, allowing you to compare your performances.

If you have any questions, please contact raceQs by emailing [support@raceqs.com](mailto:support@raceqs.com).

Warm Regards,

Race Committee
